

RISK MANAGEMENT PLAN

1. Introduction

This risk management plan addresses the ongoing activities of Pistol NT as set out in the Constitution, Regulations, various charters and policies.

Pistol NT's objectives are:

- a. To promote, control and co-ordinate safe and enjoyable participation in shooting for all age groups at Club, State, National and International level.
- b. To affiliate with Pistol Australia Incorporated.

2. Risk Identification and Assessment

The following methodology was used:

- Identify risks.

PNT Committee of Management members and State Pistol Associations throughout Australia contributed to a list of risk events which organisations such as PNT may face now, or in the future.

- Evaluate risks

Each risk event was assigned a qualitative measure of likelihood and consequence. The classifications of likelihood and consequence were determined using tables 1 and 2 respectively. These two measures were combined using the qualitative risk analysis matrix at Table 3 to assign a level of risk (high, medium or low) for each risk event. In assigning values the effect of existing controls was ignored. This enabled the suitability of existing controls to be considered. The resulting Risk Register is provided at table 4.

Table 1 - Qualitative measures of likelihood

Level	Descriptor	Description
A	Rare/Unlikely	May only occur in exceptional circumstances
B	Possible	Might occur at some time.
C	Likely	Will probably occur from time to time

RISK MANAGEMENT PLAN

Table 2 - Qualitative measures of consequence

Level	Descriptor	Description
1	Minor	Financial loss < \$5,000. Some disruption to normal operations.
2	Moderate	Financial loss < \$20,000. Adverse publicity. Loss of membership or services to members. Conflict with stakeholders.
3	Major	Financial position causes difficulty in remaining solvent. Political moves against sport. Major drop in membership. Core business difficult.

Table 3 - Qualitative risk analysis matrix - level of risk

Likelihood	Consequences		
	1 Minor	2 Moderate	3 Major
A Rare/Unlikely	L	L	M
B Possible	L	M	H
C Likely	M	H	H

Legend

H - High Risk, Action required from Management Committee within 12 months

M - Moderate Risk, Management responsibility must be specified

L - Low Risk, Manage by routine procedures
